REPLY TO THE ATTENTION OF:

OCT 21 1993

Steve Schmidt  
Area Engineer, Ft. Crook Area  
P.O. Box 13287  
Offutt AFB, NB 68113

Dear Mr. Schmidt:

In reference to the Rapid Response action at the NL Industries/Taracorp Site, Granite City, Illinois, I would like to request that the U.S. Army Corps of Engineers utilize the contingency money already available under a modification to the current delivery order #58 to remediate approximately 35 additional residential sites contaminated with lead from smelter stack fallout. These sites, which are contaminated with greater than 1500 parts per million lead, will be excavated to pre-specified depths of either three, six or twelve inches.

If you have any questions concerning this letter, please contact me at (312) 886-4742.

Sincerely,

A handwritten signature in cursive script that reads "Brad W. Bradley".

Brad Bradley  
Remedial Project Manager
